Activity 1 – Research a SPED issue using Safari.

Make notes of your findings.

Email a teacher with your findings.

Reply to another teacher.

Activity 2 –Download “iPad User Guide for IOS 5” from the iBooks store and look up using a camera (p 126).

Activity 3 – Use the camera app to create a short video or series of photos that you might use as part of an activity with your students. Share your video or photos with the class.

Activity 4 - Download Google Earth and find your school. What are some time and place questions you might ask your students?

Afternoon

Lunch

Activity 5 – Use one or more of the built-in apps to design a curriculum-aligned activity for your students. Share your ideas using the Springfield iPad wiki.
